How to keep (PORT) your Aflac @ the same rates?

ONLY you can CANCEL your Aflac benefits! If you retire, change jobs OR if your work tries to replace Aflac with other benefits –, you can ALWAYS keep your Aflac @ the same rates.

MyAflac - The amazing & free "MyAflac" app has tons of great functions, like Showing you your Aflac coverage, Setting up Aflac to pay claim $$$ to you via Direct Deposit, checking your Claim History, Enrolling in the "AflacALWAYS" feature & more. Ask me about it & do it now!

AflacALWAYS – You can enroll in this on the MyAflac app, it has the potential to save you $$$ when you leave your job and keep your coverage @ the same rates. Ask me about it. If you enroll in AflacALWAYS before you leave your job & before your work codes your Aflac as "terminated/leaving employment". Setting this up now, can get you possibly 1 month of coverage for free, when you get moved off payroll deductions to now private monthly auto-drafts. Life plans are not eligible for this & 100% need to be called in, to be kept. See below.

Step 1 – If you did not set up AflacALWAYS in time or if you have an Aflac Life plan & need to take over payments for your plan -DO THIS! Do not mail a check, it will NOT get done in time.

Step 2. – Pay over the phone for any missing months & up until the END the of the month you are currently in. THEN have Aflac do a " recorded Voice Authorization" to set up "monthly" auto-payments(off a credit card OR bank account - it's your choice), starting in the following month & select day 28 as the draft date(it's the latest possible date allowed). Before you hang up, ask for a call ref #, write it down & text or email it to me.

TIPS (below) FOR ACTUALLY CALLING AFLAC

- **Call Aflac @ 877-722-3522 (they will only chat with you about this topic) - if calling between 8:15am to 9:30am, usually gets you right through. Rest of day is hit or miss.**
- **Once you hear an automated voice or a question, don't answer the question; but instead hit the pound button "#" about 7 times slowly. Then it might say "we didn't understand, please try again". Then hit the "#" button another 7 times. Then it should say "We didn't understand you, let us transfer you to an agent".**
- **Then it will ask what part of the country you are located in - select 4 for Northeast**
- **Best Regards, Stephen M. DeBellis Aflac Benefits Advisor**
